## PROFILE

My name is Calvin Hemington and I am an aspiring designer and developer. I have a business degree from the University of Notre Dame and have been working in Finance since graduating in 2014. After learning the ins and outs of Corporate Finance at Adobe, I realized that my true passion lies with products. From the birth of an idea, to the design, to the development, I love the excitement of bringing something new into the world. This realization motivated me to consume as much information about design and development as possible. I am self-taught, as well as a graduate from Coding Dojo, a 14 week intensive coding bootcamp. Although I have limited experience, I will more than make up for it with tireless motivation and a strong work ethic.

## WORK EXPERIENCE

- **Boombox** 2017 - present  
Founder & CEO  
Manage day to day operations as well as construct and implement forward-thinking strategies to grow and scale Boombox's core storage business
