PROFILE

My name is Calvin Hemington and I am an aspiring designer and developer. I have a business degree from the University of Notre Dame and have been working in Finance since graduating in 2014. After learning the ins and outs of Corporate Finance at Adobe, I realized that my true passion lies with products. From the birth of an idea, to the design, to the development, I love the excitement of bringing something new into the world. This realization motivated me to consume as much information about design and development as possible. I am self-taught, as well as a graduate from Coding Dojo, a 14 week intensive coding bootcamp. Although I have limited experience, I will more than make up for it with tireless motivation and a strong work ethic.

WORK EXPERIENCE

Adobe 2014 - present
Financial Analyst
- Forecast and manage operating expenses for Adobe's Digital Publishing and Flash teams
- Ensure corporate expense goals are met as well as supply sufficient budget to business partners

Niche 2014 - present
Founder / Frontend Developer
- Current passion project that aims to expand the scope of affiliate marketing programs, by offering a social platform for everyday shoppers to promote products and share in the revenue they generate.

OneID 2012
Market Research Intern
- Formulated and documented competitive analysis through hands on evaluation of the competition's products
- Designed and administered usability testing in order to guage the effectiveness of the product's UI/UX
