## PROFILE

My name is Calvin Hemington and I am an aspiring designer and developer. I have a business degree from the University of Notre Dame and have been working in Finance since graduating in 2014. After learning the ins and outs of Corporate Finance at Adobe, I realized that my true passion lies with products. From the birth of an idea, to the design, to the development, I love the excitement of bringing something new into the world. This realization motivated me to consume as much information about design and development as possible. I am self-taught, as well as a graduate from Coding Dojo, a 14 week intensive coding bootcamp. Although I have limited experience, I will more than make up for it with tireless motivation and a strong work ethic.

## WORK EXPERIENCE

**Adobe** 2014 - present
Financial Analyst
Forecast and manage operating expenses for Adobe's Document Clouid team
Work with business partners to facilitate funds effectively while maintaining corporate financial goals

**Niche** 2014 - present
Founder / Frontend Developer
Current passion project that aims to expand the scope of affiliate marketing programs, by offering a social platform for everyday shoppers to promote products and share in the revenue they generate.

**OneID** 2012
Market Research Intern
Formulated and documented competitive analysis through hands on evaluation of the competition's products
Designed and administered usability testing in order to guage the effectiveness of the product's UI/UX
